Hand Operated Sliding Seal Valves

Sliding seal valves provide 3 or 4-Way directional control in a compact body size. Comfortable hand lever is easy to operate and maintains set position. Disc type valve has minimum number of moving parts. Valves should be used with filtered and lubricated air.

⚠️ CAUTION:
Install guards on all hand operated valves. Accidental operation can cause personal injury.

Note: 3-Way exhaust passage is through an untapped hole in bottom side of valve.

Operating information

- Operating pressure: Max. 200 PSIG air only
- Min. 26” Hg vacuum
- Temperature range: -40°F to 212°F (-40°C to 100°C)
  (If it is possible that the ambient temperature may fall below freezing, the medium must be moisture free to prevent internal damage or unpredictable behavior.)
